

PARIS BENARES

« Les Vaches Sacrées »

Contact technique: Patrice Verquère : +33 (0)6 20 56 15 80

Location:

We have to make a location scouting of the route before being able to validate it definitively. It can be done the day or the morning before the show, depending when the team arrives.

Ideal distance of the route: 700 to 800 meters. Please, inform us if the circuit is longer
Average speed of the puppet: 1 km per hour.

Planning :

Assambling takes : 2 heures

Dismantling takes : 2 heures

Ground area needed for assembling :8mx8m

No staff or equipment required ; we are autonomous.

Size of puppet :

Height : 3,80 mètres

Width : 2,5 mètres

Length : 5,20 mètres

Weight : 2 tonnes

Constraints:

Provide a locked or guarded storage place, from the arrival of the team to his departure, if several consecutive days of play.

Warn if there are any sidewalks to pass on the course and in case of large amounts.

Check that there are no cables, decorations or anything across the street within 5 meters.

The puppet does not go under the tramway wiring.
